## Spring Related Tools and Add-Ons

- [ACEGI Security](#) - comprehensive security services for the Spring Framework
- [Spring IDE](#) - graphical user interface for the configuration files used by the Spring Framework
- [Spring BeanDoc](#) - tool that facilitates documentation and graphing of Spring bean factories and application context files
- [XDoclet Spring Tags](#) - support for generating Spring XML config files from annotations in Java classes (you could also use JDK1.5 annotations to achieve this)
- [Spring Web Flow](#) - for web applications with demanding page flow requirements
- [AppFuse](#) Not really a tool or add-on, but AppFuse is Matt Raible's project to jumpstart your Java web projects. It uses Spring at it's core and studying it is a great way to learn about Spring.
- [Spring Framework .NET](#) – Spring Clone for the Dark Side ☺
